

## Organizational Assessment Checklist

WHERE DO YOU START?!? You know you want to involve youth in decision-making, or you know that you can do it better – but you don't know how to get going! This checklist can help you think about the most important factors in successful youth involvement, and challenge you and your organization/school/club to do more, better. Make sure you read the *15 Points* manual for more information on anything on this checklist.

This checklist is to be used to help give direction, uncover hidden issues, clarify tasks, and guide commitment to involving youth in decision-making. Use it as a tool with your board, your staff, young people, or other people who are participating.

YES = We do this already and don't need assistance

NO = We don't do this yet and want to develop next steps to move forward in this area

N/A = This is not applicable to us / We don't plan to do this

*Please note that we are not suggesting that every organization meet all of these criteria.*
